“ *Donna was my roommate for 17 years. She was a very sensitive woman with a big, caring heart. She loved when she could help someone else. She loved her son Dan and her grandchildren. Being in Ohio, the distance made it difficult to see them, but she always followed them on Facebook and often showed me pictures of them. My place is surely quiet around here without her presence and I'm going to miss her tremendously. After my many hospitalizations, she was always there for me. Over the years, we had become more like sisters than roommates.*

*Donna, you can rest easy in God's arms now and you're finally rid of the pain you lived with every day. I will miss you.*

*My Mom. She had the biggest heart and would help anyone and she has many times. She would be the last to ask for help. She loved to see peoples smile when she would prepare meals for them, She loved catering big events , I know she would watch people react to her meals. She would make me laugh, "oh I don't think they liked that". "they are smiling ang getting more so I should make that again". My Mom was a very loving person with an infectious laugh and beautiful smile. My memories of camping and enjoying the outdoors is something that I will never forget, I have many stories of our trips to Lake Gaston or Lake Anna. I will miss My Mom terribly , but it eases my mind knowing she is no longer in pain that she has lived with for years. I love you very much Mom , I will miss you with all my heart, May you rest in peace. Danny*
